

## **FINAL TECHNICAL REPORT**

### **Project Title:**

**Source Characterization Study of the Portland Hills Fault,  
Portland Metropolitan Area, Oregon**

### **Recipient**

URS Corporation  
500 12<sup>th</sup> Street, Suite 200  
Oakland, CA 94607  
510-874-3014

### **Principal Investigators:**

**Mark A. Hemphill-Haley** – formerly URS Corporation, 500 12<sup>th</sup> Street, Suite 200, Oakland, CA 94607, currently, Department of Geology, Humboldt State University, Arcata, CA 95521  
(phone 707-826-3933, e-mail [mah54@humboldt.edu](mailto:mah54@humboldt.edu))

**Lee M. Liberty** – Center for Geophysical Investigation of the Shallow Subsurface 1910 University Dr., Boise State University, Boise, ID 83725 (phone: 208 426-1166,  
e-mail: [lml@cgsi.boisestate.edu](mailto:lml@cgsi.boisestate.edu))

**Ian P. Madin** – Oregon Department of Geology and Mineral Industries, 800 NE Oregon Street, #28,  
Suite 965, Portland, OR 97232  
(phone: 503-731-4100, e-mail: [ian.p.madin@state.or.us](mailto:ian.p.madin@state.or.us))

### **Program Element: II**

US Geological Survey  
National Earthquake Hazards Reduction Program  
Award Number 00-HQ-GR-0023

June, 2002

Research Supported by the U.S. Geological Survey (USGS), Department of the Interior, under USGS award number 00-HQ-GR-0023. The views and conclusions contained in this document are those of the authors and should not be interpreted as necessarily representing the official policies, either expressed or implied, of the U.S. Government.

## Table of Contents

<b>ABSTRACT .....</b>	<b>3</b>
<b>INTRODUCTION.....</b>	<b>3</b>
<b>GEOLOGIC SETTING .....</b>	<b>5</b>
<b>GEOLOGICAL AND GEOPHYSICAL STUDIES .....</b>	<b>7</b>
<b>NORTH CLACKAMAS PARK INVESTIGATION.....</b>	<b>8</b>
<b>DISCUSSION.....</b>	<b>17</b>
<b>CONCLUSIONS.....</b>	<b>20</b>
<b>REFERENCES .....</b>	<b>20</b>

## List of Figures

Figure 1a - Pacific Northwest schematic with seismicity since 1980.....	6
Figure 1b - Portland metropolitan area with historical seismicity since 1841.....	6
Figure 2 – Aeromagnetic anomaly map of the northern Willamette Valley (from Blakely et al. 1995) .....	9
Figure 3 – Shaded topographic map of the Portland Metropolitan and surrounding areas.....	10
Figure 4a – Topographic map showing the distribution of water wells in the vicinity of North Clackamas Park.....	11
Figure 4b – Cross-section of well data across the Portland Hills fault near NCP.....	11
Figure 5 – Locations of geophysical studies within the NCP study area.....	13
Figure 7 – Unmigrated and migrated results from seismic reflection Line 1 .....	15
Figure 8 – Line 2 seismic reflection dip profile.....	16
Figure 9 – Ground penetratting radar profiles constructed across the projection of the Portland Hills fault .....	18
